

Parkway Plaza III

LOCATION: Vancouver, Washington

PROJECT TYPE: Office

SIZE: 52,662 SF

COST: \$4,800,000

COMPLETED: 1989

ROLE: Developer

ARCHITECT: Thompson Vaivoda

CONTRACTOR: Baugh Construction Oregon Inc.

Parkway Limited Partnership was formed to develop the 52,662 square-foot building in Vancouver, Washington. The \$4,800,000 all-union project began in October 1988 and was completed in May 1989.

Parkway Plaza III is a three-story, Class A, office building located near numerous retail stores and service businesses, including banking, restaurants, and gas stations.

There is convenient access to I-205 and the Portland Airport. Building amenities include showers and lockers in all restrooms, a building conference room and a three-story lobby atrium with a skylight.

This Class A office building offers superior visibility, location and quality of construction.
